

## **Lehigh Quarry Update**

**2012- 01- 28**

Early in 2011, the Los Altos and Los Altos Hills communities formed a joint *ad hoc* committee to examine allegations made against the Lehigh Quarry, just North of Cupertino. The primary objective was to transparently and objectively examine the information surrounding the facility and to seek an independent expert opinion of its impact on our communities. And, when complete, to report the results to our communities.

That time has now come. On February 6<sup>th</sup> at 6PM, an informational forum will be held at the Los Altos Hills Town Hall to deliver an outbrief of the contractor's findings. The two regulatory Boards, the BAAQMD and the RWQCB will also attend. They will describe their own recent actions and other pertinent information for our community's citizens.

We invite you to attend.

Thank you,

Los Altos Councilmember David Casas

Los Altos Councilmember Ron Packard

Los Altos Hills Vice Mayor Gary Waldeck
